

Have you ever wondered how to easily import your photos from iPhoto into ROES for ordering? Check out this guide for the easy answer!

Step 1.

Create an empty folder on your desktop. This is where you will place your images for ordering.

Step 2.

Open the iPhoto application. Select "File" and "Export". (Be sure "Full-sized images" is selected)

Step 3.

Click on the "Export button." When prompted for a folder to export to, select the folder that you created on your desktop in Step 1 and click "OK".

Step 4.

When it completes, the export will have created copies of the images in your iPhoto album in the new folder. From here, you can open ROES and place your order. Just click on the "Folder" button in ROES and find the folder containing your images.

As always, if you have any questions feel free to call us at 1.800.475.8340. We are always more than happy to help out with any concerns you may have!
